## Catholic Brain Learning Platform

Catholic Brain is an online learning platform providing additional resources for your children. It pulls content from a variety of sources that are appropriate for students in Pre-K through 8<sup>th</sup> grade. There is an app that is optimized for Apple and Android. Catechists may assign activities from Catholic Brain (such as a video or a game) or you may want to surf around to find an activity that works for your family. Please do not share this access information outside of the RE program.

Each family (not each child) will need to register for an account using our unique school code.
